EDUCATION

University of North Texas Denton, TX
Bachelor of Arts in Mathematics; Minor in Technical Communications Expected 2026
Relevant Coursework: Linear Algebra, Statistics, Calculus I-III, Technical Writing, Data Structures & Algorithms

TECHNICAL SKILLS

Programming: JavaScript, C#, MATLAB, SQL, HTML/CSS
Frameworks & Tools: React, Git/GitHub, SVG, KaTeX, Capacitor, Android, DITA XML, DITA-OT, GitHub Actions
Technical: Data Structures, Graph Algorithms, Linear Algebra, Structured Authoring, Technical Documentation, Excel, Google Sheets

EXPERIENCE

Programming Tutor | Code Ninjas Learning Center Apr 2024 - Present
Keller, TX
- Teach JavaScript and C# through individualized instruction, adapting technical explanations to students with different experience levels, ages, and learning styles.
- Track student progress and prepare concise written updates for parents and management, documenting growth, engagement, and areas requiring additional support.
- Develop and organize course material, troubleshoot programming issues, and guide students through debugging and structured problem-solving techniques.
- Collaborate with staff and families to adjust instruction and maintain a consistent learning environment for students.

Assistant General Manager | Marco's Pizza Aug 2016 - Aug 2022
Keller & Denton, TX
- Managed daily operations for high-volume locations, coordinating staffing, workflow, customer service, inventory priorities, and shift execution.
- Maintained accountability for approximately $1,000-$2,000 in daily cash flow, including cash counts, closeout procedures, and accurate recordkeeping.
- Created weekly Google Sheets reports tracking inventory, staffing, workflow performance, and store needs to support management decisions.
- Interviewed and trained new employees, resolved customer concerns, and supported the launch and operational setup of four new store locations across Texas.

Solar Installer | Afford-A-Solar Jun 2018 - Aug 2018
Keller, TX
- Inspected residential roofs and estimated material needs while communicating project expectations and maintenance information directly with clients.
- Coordinated with electrical teams during residential solar installations to support safe system completion, testing, and client handoff.

TECHNICAL WORK

- Built interactive React applications for graph-search and linear-algebra concepts using JavaScript, SVG, KaTeX, Dijkstra, A*, and related data structures.
- Developed a local-first Android workout application with React and Capacitor, including on-device workout history and previous-weight recall without cloud services.
- Created structured technical documentation with DITA XML and DITA-OT, reusable topic architecture, technical diagrams, and automated HTML/PDF publishing through GitHub Actions.
